

2017 Big League High School League-Summary

Last year the 2017 Summer High School League was comprised of 14 registered teams and 8 guest teams (listed below). The Big League teams were divided into JV and Varsity Divisions. Most of the nine JV teams were incoming freshmen or 15U teams with the balance registering as Varsity Teams.

We allow the Varsity teams to carry graduating seniors (playing their final high school games) so we encourage any college bound players to register. As a private league we are not bound by any specific age requirements and as such have a greater flexibility when developing rosters.

Last year our JV teams were mostly 15U rosters but some teams carried 16 year old players in order to help coach's fill their rosters. We like the JV and Varsity formats rather than the 15U, 16U 17U...age restrictions. Securing players is difficult enough for Coaches without adding specific age requirements.

All our coaches will be aware of the age composition of their potential opponents and can decide which teams they want to play (remember they can design their own schedule).

Our mission is to develop competitive matchups and provide players with the challenges that will build skills so to that end our teams do not have to conform to any specific tournament standards.

2017 Big League Registered Teams:

Teams registering on the Big League website are in yellow. The team's schedules ranged from 12-20 games with 8 teams participating in our Big League Tournament (July 8-9). Additionally, three Big League teams entered the Settlers Tournament (June 30-July 2) at the Don Edwards Complex in Newark Ohio. Big League paid for the entry fees and accordingly all games in the tournament counted toward their regular season total.
